Silver Midmarket Solution Provider

SharePoint   **Microsoft Office 365**

Features & Benefits

Layer2 as one of the leading vendors of Microsoft SharePoint solutions and apps in Europe is powerful together with its partners - and for its partners. If we speak about partnership, we don't think about a one-way street:

- Partner program for implementation partners and resellers.

- No contract required. Completely cost-free.

- We are listing partners at our product pages. Sales leads will find their local partners and will ask for licenses and implementation support.

- 15-30% discount on production licenses in our online product store. Please note, that you have to actively promote the partnership and the products to get the maximum discount, e.g. on your web site, with case studies etc. There is no additional discount on non-production licenses (50% off by default) and Software Assurance (SA).

- Place your orders using our online shop system. Simply enter your partner coupon code to receive your discounts. Please request the current codes on demand.

- It's completely free for partners to use our solutions internally as NFR Edition, for product demo or within your intranet, extranet or even Internet. Please note, that you should have a minimum sales volume per year for this option.

- Free premium support level with high priority and direct access to the product development team. Joint development options. Project support, if required.

- Free marketing and sales support, ready to use digital marketing material including flyers, presentations and evaluation downloads.

> *"We have been using the Layer2 Share-Point Business Data List Connector for several months now, and we really like it so much that we want to stick with your products."*
